

STONEWALL ANALYTICS

DATA SCIENCE | ECONOMIC ANALYSIS | PROGRAM MANAGEMENT

CAPABILITY STATEMENT

Stonewall Analytics, established in 2016, is a service-disabled Veteran-owned small business, certified by the Department of Veterans Affairs.

Stonewall Analytics specializes in data science, economic analysis, and program management. **Our mission is to provide end-users with cutting edge analytical tools and information to make knowledgeable, sound and impactful decisions in industry.**

Stonewall accomplishes this mission through knowledge translation, targeted analytics, and long-lasting, meaningful relationships with clients.

We will provide you and your team with the **data-driven insight you need to surpass your competitors**. What's more, we will show you tools and new skills which will **enhance your production capabilities long after project completion**.

Our Quality Services and Products. At the core of Stonewall Analytics capabilities is the ability to harness data using data science tools and techniques to provide solutions to business, government, and industry applications. We will use this experience to meet your project needs.

Our Collaborative and Goal-Oriented Approach. Ongoing collaboration and regular communication are some of the key components to successful project outcomes. Stonewall Analytics understands this need and will incorporate the foundation for a collaborative project environment based upon open lines of communication. Stonewall Analytics prides itself on responsiveness to our clients' needs and developing meaningful, professional relationships.

DIFFERENTIATORS

Stonewall Analytics was founded for one sole purpose -- **to provide clients with the tools and information to make sound, informed industry decisions**. When we work together, we will not rely on fancy reports or presentations that give you the information you already know. We will provide you with **actionable data and analysis to resolve the problems you experience in your business**.

Unlike larger firms, our focus is not on margin or profit, but with **helping clients harness the power of data to improve outcomes and build lasting professional relationships**.

We will show you and your team the tools and skills needed to **grow and expand your business**. Once that is accomplished, we remain ready to assist when needed.
